

THE AUSTRALASIAN CONFERENCE ON ERROR IN MEDICAL IMAGING

Basil Hetzel Building, Frome Road, Adelaide
November 21 & 22, 2014

The third Australasian Conference on Error in Medical Imaging will take place in Adelaide on 21st & 22nd November, 2014.

The theme for this multi-disciplinary conference will be 'making imaging safer' through information technology, quality improvement, informatics, human factors and systems approaches.

Established and emerging issues in patient safety in radiology, will be addressed including:

- ◆ Safety of radiology systems and health information technology
- ◆ Justification of medical imaging
- ◆ Risk management and liability in medical imaging
- ◆ The impact of adverse events on healthcare workers
- ◆ Patient centred care
- ◆ Adverse event reporting
- ◆ Surgical safety checklists

To obtain the full program of speakers and workshops, or to register for the Conference, go to www.ausconfonerrorinmedicalimaging.com.au

Speakers include:

Professor Michael Buist

Professor Health Services, Medicine & Paramedicine, University of Tasmania

Professor Paul Chang

Professor and Vice-Chairman
Radiology Informatics,
University of Chicago School of Medicine

Assoc Professor Julian Rait

President, MDA National

Mr Neville Board

Director of Information Strategy and Safety in
eHealth, Australian Commission on Safety and
Quality in Health Care

Dr Catherine Mandel

Consultant Radiologist, Peter MacCallum
Cancer Centre, Melbourne

Professor Sidney Dekker

Professor, Safety Science Innovation Lab
Griffith University
